

Conferma Pay Mobile App for eCommerce

With the Conferma Pay app your employees can access virtual card details to re-key into websites and apps to pay for business expenses such as office supplies or online training

confermapay.com/app

Extend your account to your employees and non-employees

Allow your employees and non-carded one-off users to easily request cards from your existing virtual card account

No reimbursements or cash advances

Free your employees and non-employees from paying for business expenses with their personal card or cash

Manage spend controls

Apply real-time spend controls to restrict payments

Capture rich data

Centrally reconciled enhanced data ready for your internal accounting systems

Enhance your finance team productivity

Reduce your finance risk, cost and effort in reconciling business expenses

Push, Approve or Decline

Remotely spend or approve card requests adhering to policy, from your mobile or desktop

If you already have a virtual card account, you can extend it for use in the Conferma Pay App today by contacting your TMC or Card Issuer.

If you don't yet have a virtual card account, check out our website www.confermapay.com to learn how virtual payments and the Conferma Pay App can benefit your business.
